FLORALWALL™ SP CORNER SERIES

FLORALWALL™ refrigerated displays offer advanced design features that provide unmatched superiority in styling, performance and durability. Exclusive features include Floraline's patented self-watering/self-cleaning system that extends product shelf life and reduces shrink of floral bouquets and cut flowers. This industry-first feature minimizes maintenance and frees your personnel for more important tasks.

The SP Corner series (available as right or left corner models) offers the same attractive features as the SP series with top shelf. This open-front floral merchandiser is also open on the curved corner for high visibility. This series features four rows for floral bouquets and cut flowers, and a PVC top shelf to display arrangements and specialty items.

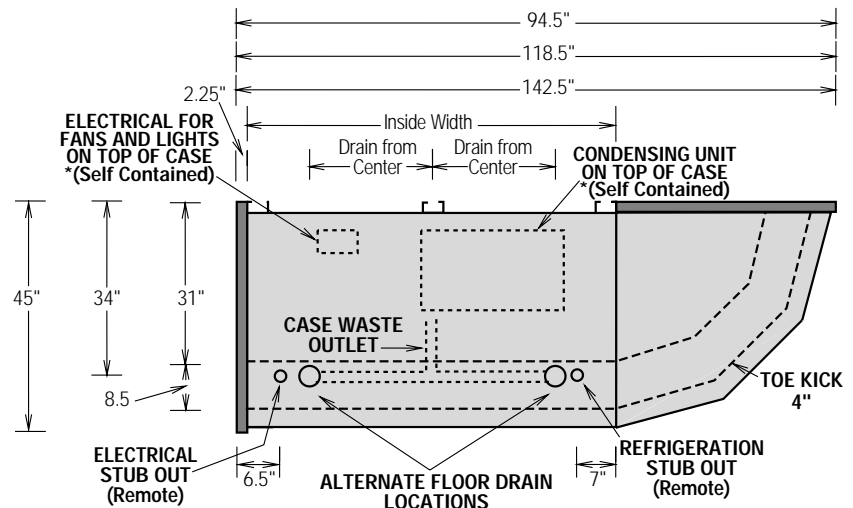

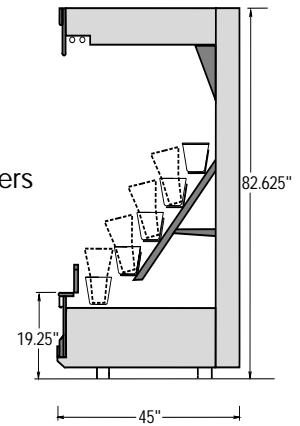

STANDARD FEATURES

- Patented self-watering/self-cleaning system replenishes water automatically; keeping it fresh for floral bouquets.
- Soft Air Flow Environment. A refrigeration envelope is created by directional air flow simulating a closed-door environment. Protects even the most delicate flowers.
- Polyurethane foamed in place insulation.
- Long-lasting, high-output SPX 35 lamps for truer, more natural floral presentation.
- Under case air return.
- Charcoal-impregnated water filter system removes harmful chemicals.
- Dual air pattern for environmental control.
- 12" mirrored backwall and mirrored ends for brighter, more bountiful appearance.
- Vases sit at 15° to enhance visibility.
- Full selection of exterior laminate colors to complement your store decor.

SP CORNER SERIES & MORE

Floraline manufactures a complete selection of open-air and closed-door floral merchandisers that complement the SP Corner series. Our custom-design services and cabinet department can tailor these displays for your specific requirements.

*Note: Self contained requires floor drain.
